“This is what I mean about going the extra mile. When a forwarder and customer are able to think on the same page without having to be told what to do. That’s a good sign when you get into a working relationship at that level. Thank you for continually doing a top notch job for Hutchinson!”

Training Seminars

SEKO conducts training seminars in transportation, regulatory compliance and logistics. These are primarily compliance-focused seminars that cover regulations in over 200 countries - regulations that are changing every day. We educate your staff on what to do when it comes to crating, shipping, insurance and more, helping to save you time and money.
