

Intelligence Delivered

Services for Automotive

SEKO services some of the largest OEMs and tier one suppliers in the world, from manufacturing support and inbound supplier management to reverse logistics and aftermarket parts replenishment.

We operate in more than 40 countries, with the best in-house developed technology to support your automotive supply chain. Whether your suppliers or manufacturing centers are in Mexico, Germany, the United States or China - we are there to deliver customized supply chain solutions, with the most sophisticated technology in the industry.

“Our customer was very pleased with our efforts in supporting their outage. You and your team did a great job on our behalf in delivering a number of time sensitive loads. Nice Job to ALL!”

Mike Peck - Turbo Parts

Inbound Supplier Management

We facilitate more streamlined supply chains by helping you to measure lead times, fulfilments and shipment information from your overseas and local vendors. When you need to keep your production line on schedule and with no delays, count on SEKO to help you manage your suppliers more effectively.

Purchase Order Management

Our latest, in-house developed PO Management System keeps you informed on where your containers are, where they are going, where they are stored and when they have arrived. From home or office, it's easy and effortless.

Manufacturing Support

Whether your needs are on-site or with one of our warehouses, SEKO provides logistics support for your manufacturing facilities in Asia, Europe and North America.

Global Supply Chain Visibility

Our online customer portal, MySEKO, lets you track your freight from origin to destination, giving you access to view and upload all necessary documentation and to receive status reports via email and customized reporting. We also integrate all transportation and Warehouse Management System (WMS) technology with your ERP and order management systems.

Aftermarket Parts Replenishment

SEKO operates logistics centers for your aftermarket parts replenishment needs. With online order management and WMS software, you can outsource the entire logistics support function for all of your warranty and service parts needs.

We Specialize in Special Handling

We offer all sorts of project cargo services, including break bulk and RO/RO for larger military vehicles. We also deal with all manner of sizes and weights, for specialized cargo such as oversized tires, heavy machinery and equipment.

“My team and I appreciate the way that you are always on the ball and willing to go out of your way to help get us our material in time to prevent our lines from going down. Nice Job!”

Keith Burd - Dura Automotive

About SEKO Logistics

We provide a suite of logistics services which enable you to use your supply chain as a competitive differentiator. As a customer centric organization, we are powered by the expertise of our people and our in-house developed, best in class, customizable technology. It is this combination which gives SEKO its strength.

With over 120 offices in 40 countries worldwide, SEKO's unique shareholder management model enables you to benefit from our specific industry sector expertise, coupled with vital in-country knowledge and unparalleled service at the local level. This unique model provides you with:

- Hands-on service and support
- Personal relationships
- Creative, customized solutions
- Responsiveness and reliability
- Flexibility and consistency

We have a flat management structure, with just three layers between you and the CEO, making us 'fast on our feet' in delivering solutions that can meet your exact requirements. This lean and nimble structure increases our decision-making speed and gives us an ability to implement customized solutions which far exceed those of our competitors.
