Sunglasses Shop story

THE CHALLENGE

Sunglasses Shop was fulfilling UK & International orders from their UK warehouse. However, their second largest market after the UK was the US. The challenge here lay in dealing with the high cost of shipping returned items back overseas to their warehouse and being charged unnecessarily for UK customs duties & VAT. These costs were having a negative impact on their US business.

THE SOLUTION

SEKO worked to reduce shipping costs by consolidating returns orders at a central point in one of their 58 locations in the US. Using the SEKO Warehouse Operation & IT platform, returns can be quickly checked and recorded, giving the client full visibility of their incoming stock. SEKO in-house customs experts reviewed the returns process in the UK to gain Returns Goods Relief authorisation from HM Customs on behalf of Sunglasses Shop to avoid paying duty & VAT on the returns.

THE RESULT

Since setting up weekly or bi-weekly bulk consolidation shipments, Sunglasses Shop have greatly reduced their international shipping costs back to the UK. Refunds can now be managed in a much shorter timescale with new domestic delivery times. Working with SEKO customs experts allowed Sunglasses Shop to follow the correct customs protocol and set up the right customs regime for their business to avoid paying unnecessary duty & VAT on returns into the UK.
